

20 January 1975

MEMORANDUM FOR: Deputy Director of Security (PSI)

SUBJECT : Police Relations

1. It is quite obvious to me that we will be held accountable for our liaison with the Police Department in the future. I think our contact with the Police Department today is within the scope of our authority and responsibility but I think we might find it difficult to locate indications of the type of contact we have with the police in our files.

2. I suggest that you may wish to issue an instruction that in any case we work that has the police involved, other than routine police checks, a copy of the report reflecting that contact be placed in the Police Liaison File. If this system works we could develop a running example of our contacts with the Police Department.

3. I am sending a copy of this to DD/PTOS, who also has contacts with the local police.

Charles W. Kane
Director of Security
